

SKYLINE MOULIN À VENT

2022

What

The Windmill is an essential icon in Beaujolais, lending its name to this area of rolling hillsides.

Where

This wine is sourced from a single domaine with whom we have made wines for over ten years.

Winemaking

The grapes spend 13 days on the skins, and undergo semi-carbonic fermentation before being pressed and transferred to stainless steel tanks to finish fermentation. These traditional vinification techniques maintain the freshness and brightness of the wine, making it a sheer delight.

Tasting note

Accessible and refined, this is a wine for sharing. It offers aromas of red fruits, jammy, expressive notes of violets and touch of basil for a distinctive freshness. The white pepper and blueberry finish gives the wine an even more complex profile. Works well with coq au vin or, for something different, sander in a red wine sauce.
